

The graph displays the movement of a robot over a 12-hour period. The y-axis represents the position, ranging from 0.00 to 5.00. The x-axis represents the time in hours, from 00:00 to 12:00. Six different paths are shown, each with a unique color and marker:

- Black circles:** Starts at (00:00, 5.00), moves to (01:00, 5.00), then to (02:00, 4.00), (03:00, 4.00), (04:00, 3.00), (05:00, 3.00), (06:00, 3.00), (07:00, 2.00), (08:00, 0.00).
- Red squares:** Starts at (00:00, 0.00), moves to (01:00, 2.00), (02:00, 3.00), (03:00, 4.00), (04:00, 5.00), (05:00, 4.00), (06:00, 3.00), (07:00, 2.00), (08:00, 1.00), (09:00, 0.00).
- Blue triangles:** Starts at (00:00, 0.00), moves to (01:00, 0.00), (02:00, 2.00), (03:00, 2.00), (04:00, 3.00), (05:00, 4.00), (06:00, 5.00).
- Green diamonds:** Starts at (02:00, 0.00), moves to (03:00, 2.00), (04:00, 2.00), (05:00, 3.00), (06:00, 4.00), (07:00, 5.00).
- Purple squares:** Starts at (02:00, 5.00), moves to (03:00, 4.00), (04:00, 4.00), (05:00, 4.00), (06:00, 4.00), (07:00, 3.00), (08:00, 2.00), (09:00, 0.00).
- Yellow circles:** Starts at (00:00, 5.00), moves to (01:00, 4.00), (02:00, 3.00), (03:00, 2.00), (04:00, 2.00), (05:00, 0.00), (06:00, 2.00), (07:00, 2.00), (08:00, 2.00), (09:00, 2.00), (10:00, 3.00), (11:00, 4.00), (12:00, 5.00).
